The Herald's Washington special says a case was recently brought before the Treasury Department for its decision, of considerable importance and interest to holders of certificates of indebtedness and other government securities. The holder of a thousand dollar certificate mailed it to the departmept for redemption without filling the blank space, making it payable to the order of a certain person. It was stolen from the mall and sold finally to a party in Boston, the blank filled by the holder, and the certificate forwarded to the Department the second time. Both parties forwarding it for redemption, promptly notified the Department, and on its final arrival each claimed its possession. The Department held that by neglecting to fill the blank, the New Yorker lost possession, and awarded its payment to the Boston holder.

The Herald's Vera Cruz correspondent sends intelligence of a Republican success of an important character. There is a rumor, apparently well founded, that a couple of valuable silver mines have fallen into the hands of the Juarists. The new French commander, Admiral Dedelot, had arrived at Vera Cruz and proceeded at once to the city of Mexico to consult with Marshal Bazaine on the subject of the existing relations between the United States, France and the Mexican Empire. The latest advices state that he was preparing for active movements.
